

Readiness Assessment for Apple Platforms.

Get your team and organisation ready for Apple devices.

Solution Expert
Education

Authorised
Service Provider

Choosing Apple for deployment provides your education institution with intuitive software, superior security and consistent device management frameworks across all device types. Specialised skills and knowledge are required to ensure frameworks are set up correctly for a stable, scalable, and secure environment across the entire Apple estate in an organisation.

Whether you have just started deploying Apple products, or you are dealing with the challenges of shadow IT, our team of experts will work with you to identify and remove blockers around offering Apple devices as choice across your organisation.

Assessment Benefits

Our Apple experts combine both onsite and remote assessment over several days to:

- Provide insights on Apple and industry best practices
- Assess your IT infrastructure
- Mentor your team
- Provide immediate feedback
- Deliver a clear, focused Readiness Assessment report with actionable recommendations
- Plan implementation milestones and next steps

After providing the Readiness Assessment for Apple Platforms, we will develop and provide a detailed report on recommendations to ensure the management of your Apple estate utilises best practice to make it as efficient and cost effective as possible.

Key Activities

Our assessment and report will focus on key considerations required to ensure a successful deployment of Apple products within your organisation:

- Apple device deployment and management
- Security
- Core application analysis and compatibility
- Directory services and Single Sign-on
- Email
- Networking, Wi-Fi, and VPN
- Collaboration
- Back-end infrastructure
- Employee productivity
- User experience
- Application deployment and management
- Self-servicing models
- Help desk and support

Why work with JB Hi-Fi Education?

Our strong partnership with Apple extends the advantages of user choice through easy procurement, roll-out and management of Apple's complete device portfolio. Our Apple certified professionals align with best practices for implementation, so you can be confident that your systems and devices are managed, secure and working as expected.
