Education Partner

USING
TECHNOLOGY
BETTER

Apple Professional Learning (APL) bridges the gap between technology and curriculum and helps to unlock the potential of every learner.

We partner with Using Technology Better to empower educators with skills and resources they need to use Apple technology to its full potential.

Their Apple Learning Specialists provide practical strategies with hands-on sessions, to spark creativity and transform learning.

Using Technology Better's learning approach

The trainings are crafted to transform complex strategies into dynamic practical learnings.

Change facilitation

With a focus on people.

Training and Adoption

Hands-on workshops that transform everyday tools into powerful learning experiences.

Insights and Reporting

To follow-up, track adoption and prove the value of your tech investment.
